

Certificate of constancy of performance for a range of steel and aluminium lighting columns according to EN 40-5:2002 and EN 40-6:2002

Delivered in compliance with Regulation 305/2011/EU of the European Parliament and of the Council of 9 March. This certificate applies to the construction product:

Metallic lighting columns: Steel and aluminium straight columns and columns with brackets

Placed on the market by: **TECHNILUM**
Domaine de Lézigno
F-34500 BEZIERS

And produced in the factory: **BEZIERS (F-34500)**

This product is submitted by the manufacturer to a factory production control and that the notified body CTICM has performed the initial type-testing for the relevant characteristics of the product, the initial inspection of the factory and the factory production control and performs the continuous surveillance, assessment and approval of the factory production control.

This certificate attests that all provisions concerning the assessment and verification of constancy of performance of the **Steel and aluminium straight lighting columns and columns with brackets**, described in Annex ZA of the standard **EN 40-5 : 2002 and EN 40-6 : 2002**, were applied and that the product fulfils all the prescribed requirements.

This certificate was first issued on the **December 1st, 2005** and remains valid as long as the conditions laid down in the harmonized technical specification in reference or the manufacturing conditions or the FPC itself are not modified.

Reference of the range: the list of product references for the range is a document referenced n° **Configuration Technilum marked CE** kept up to date by the producer.

This certificate allows the manufacturer or its mandatories, stated in the European Economic Area, to affix the CE marking.
