Urban lighting furniture with integrated smart solutions

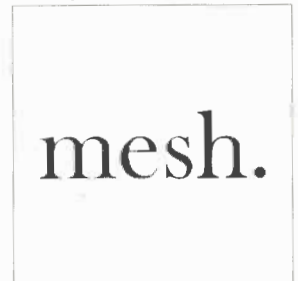

Technilum® designs & manufactures urban lighting furniture with integrated smart solutions. From ready-to-use ("Prêt-à-Poser" range) to entirely custom-made solutions ("Inspiration" range), Technilum® is considered as the specialist in responding to market needs with a strong focus on creation, innovation and design.

Technilum® has demonstrated skills in integrating smart and connected solutions into its lighting structures ("Smart-in-Site" range), which dramatically improve urban users experience: lighting management, CCTV, WiFi, battery charging, interactive sound and/or visual systems...
